OBE concept

What is Outcome Based Education (OBE)

Outcome-Based Education is an **approach** that focuses on the **attainment of intended learning outcomes** where **students** develop **behaviours** that are **authentic** to their discipline and are **assessed holistically** within the context of their learning.

What is Outcome Based Education (OBE)

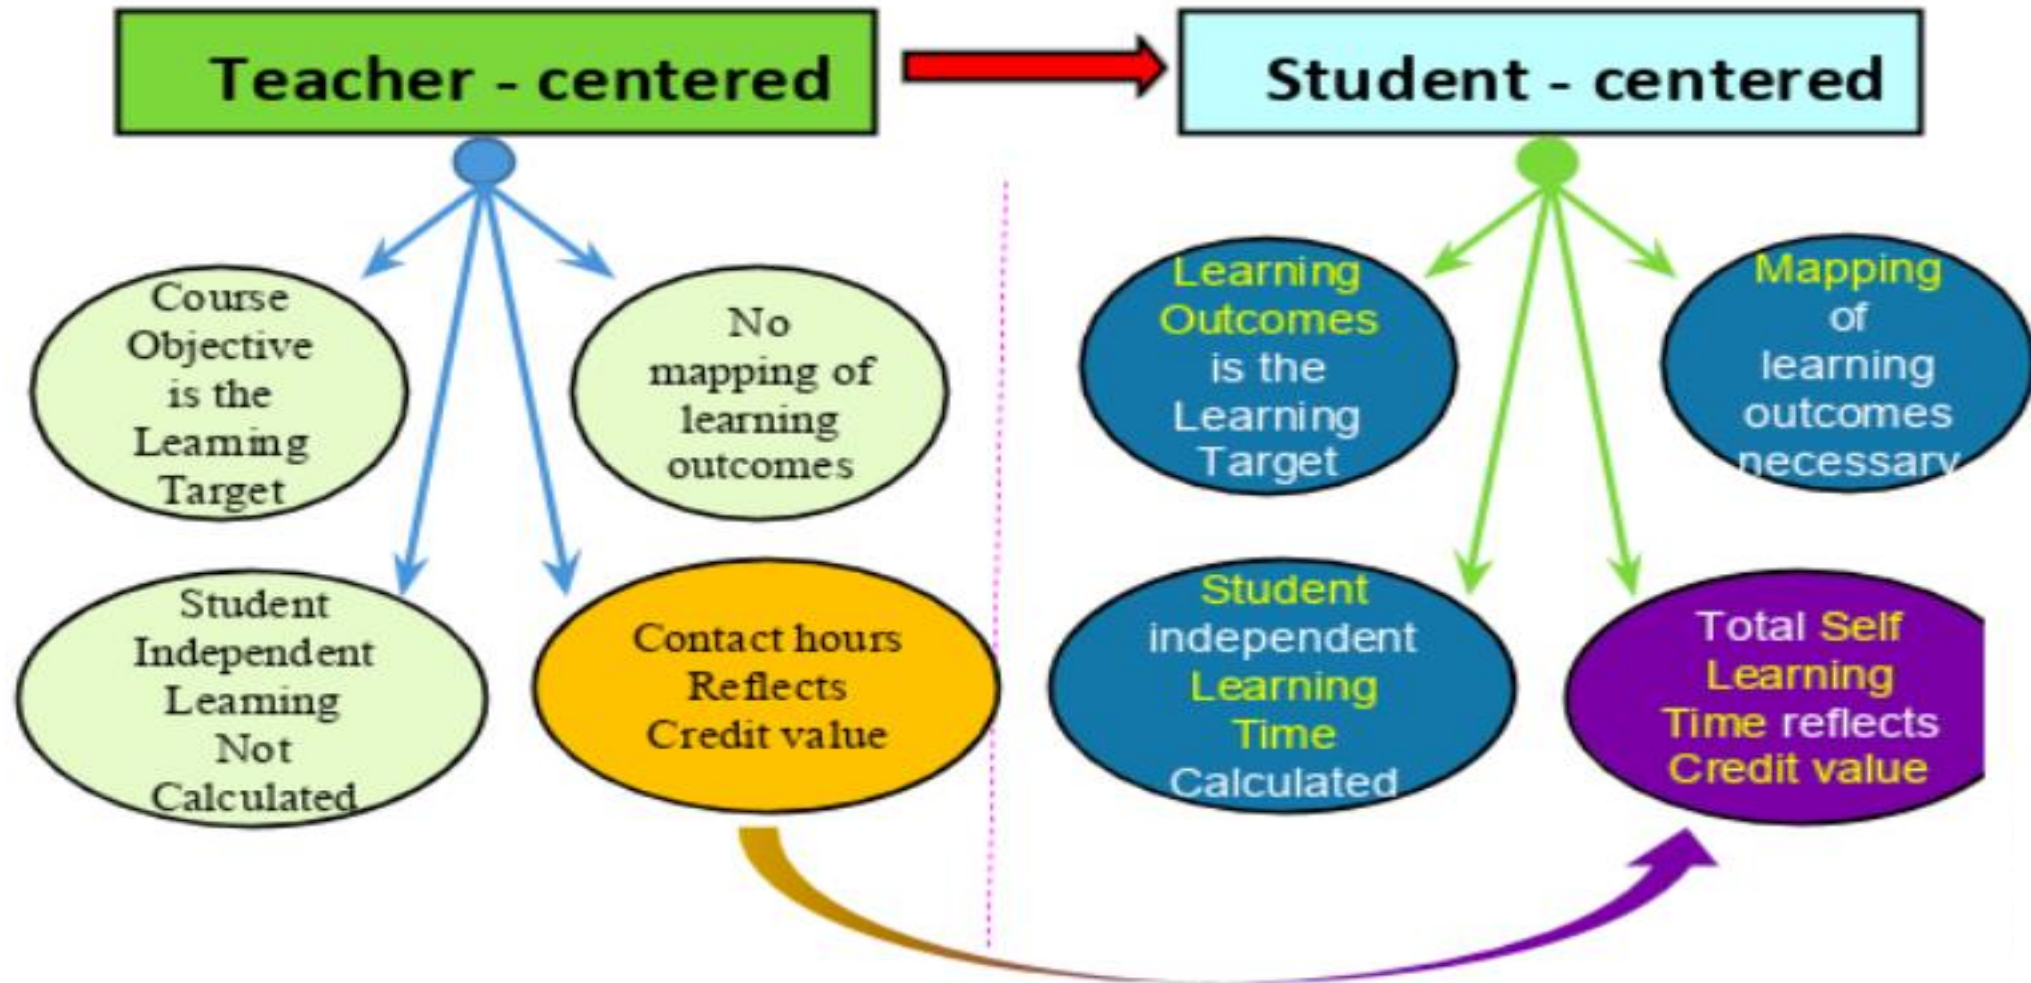

OBE means **starting with** a clear picture of **what is important for students to be able to do**, then **organizing** the curriculum, instruction, and **assessment** to **make sure** that his **learning** ultimately happens.

(Spady 1994)

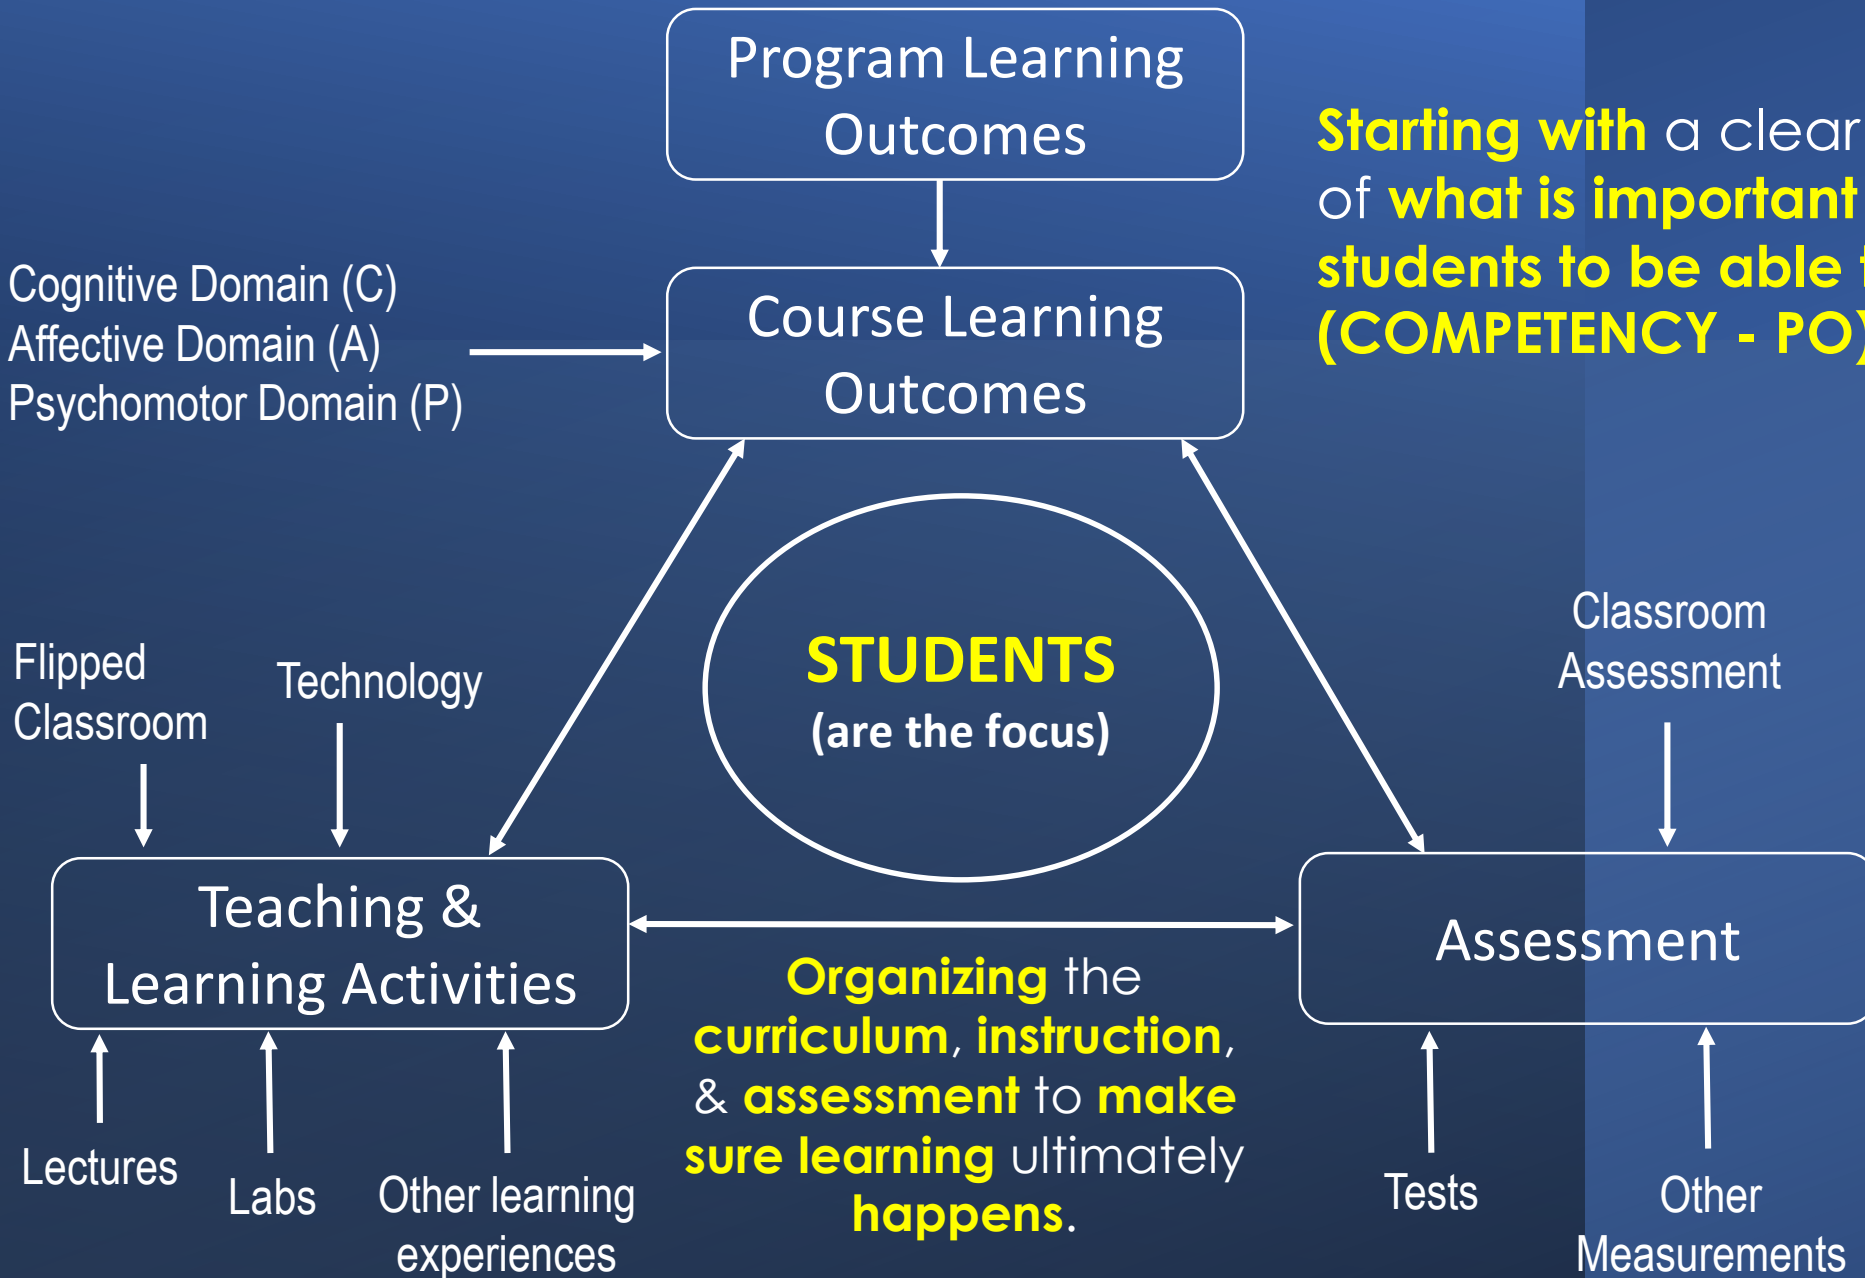

Paradigm Shift from Traditional Education to Outcome-Based Education

Aspect	Traditional Education	Outcome-Based Education
Learner Attribute	Learners may be more passive, learn by rote with grade/mark in mind	Learners may be more active, learn with purpose/outcome in mind
Instructional Planning Process	Focus on the cognitive domain, with emphasis on learning materials and/or activities in class	Focus on the intended learning outcomes, i.e. cognitive, affective and psychomotor
Curriculum Design and Delivery	Prone to adhere to rigid syllabi, curriculum and textbook materials	Support attainment of learning outcomes using appropriate assessment tools/tasks
Assessment Methods	Use formative and summative assessment based on the norm and/or lecturer's preference	Facilitate student's learning and capabilities as evidence of attainment of course outcomes
Outcome Orientation	Produce learners with adherence to curriculum and delivery methods	Enhance active learning experience using assessment tasks with rubric

OBE is student-centered learning

- Cognitive Domain (C)
- Affective Domain (A)
- Psychomotor Domain (P)

Starting with a clear picture of **what is important** for **students to be able to do (COMPETENCY - PO)**.

Important documents

The framework is defined as *'...an instrument that develops and classifies qualifications based on a set of criteria that is agreed nationally and benchmarked with international practices, and which clarifies the academic levels learning outcomes and credit system based on student academic load'*. (MQF, 2007). It is an intended as a comprehensive, overarching and integrated
